Delivering true value to businesses and employees

prescriptive

REWRITING THE SCRIPT

PLAN SAVINGS

- Medication recommendations are delivered directly to the employee's phone via text message instead of direct mail or phone calls.
- **Proactive alerts engage employees and help them to stay adherent to their medication therapy.**

\$2,589
average annual
employee savings
per conversion*

EMPLOYEE SAVINGS

- Employees have clear options to save money combined with the convenience of in-network pharmacies, reducing a key barrier to initiating (and staying on) therapy.
- **Employees enjoy an enhanced prescription experience through proactive mobile interaction including price alerts, alternative medication alerts, and personalized drug recommendations to encourage compliance.**

\$2,564
average first-year
total savings
generated to the
plan per employee
converted*

ADDITIONAL SAVINGS

- Automate formulary compliance practices to reduce operational costs that may be getting passed on to you.
